LETTER OF APPOINTMENT

To,
Mr. Umar Iqbal

Subject: Appointment Letter for Internship

Dear **Mr. Umar Iqbal**,

We are pleased to offer you an internship with ILPedia.com for a period of two months, commencing from **28 May 2026** to **28 July 2026**.

Based on your skills, academic background, and interest in emerging technologies, you are appointed as an:
Full Stack Developer with AI/ML Model Researcher & ML Model Trainer

During your internship, you will have the opportunity to work on practical and research-oriented projects involving full-stack web development, Artificial Intelligence, Machine Learning, and related technologies. You will be expected to contribute actively to assigned projects, collaborate with team members, conduct technical research, and assist in the development, testing, and improvement of software and machine learning solutions.

Roles and Responsibilities

As an intern, your responsibilities may include, but will not be limited to:

1. Developing and maintaining full-stack web applications and related software components.
2. Designing, developing, testing, and integrating frontend and backend features.
3. Conducting research on Artificial Intelligence and Machine Learning models, techniques, and applications.
4. Assisting in the collection, preparation, cleaning, and preprocessing of datasets for machine learning applications.
5. Training, evaluating, testing, and optimizing Machine Learning models.
6. Performing model experimentation and comparing different algorithms and approaches.
7. Implementing AI/ML models into practical software applications where required.
8. Conducting technical research and preparing documentation related to assigned projects.
9. Debugging, troubleshooting, and improving existing applications and models.
10. Working collaboratively with the team and following project requirements, timelines, and technical guidelines.
11. Maintaining proper documentation of development work, research findings, experiments, and project progress.
12. Continuously exploring relevant technologies and suggesting improvements to ongoing projects.

LETTER OF APPOINTMENT

Internship Duration

The internship will be for a period of two months, as follows:

Start Date: **28 May 2026**

End Date: **28 July 2026**

Duration: **2 Months**

The internship period may involve project-based assignments and responsibilities depending upon organizational requirements.

Professional Expectations

During the internship, you are expected to maintain a professional attitude, demonstrate commitment towards assigned responsibilities, meet project deadlines, maintain confidentiality of company and project information, and follow the policies and guidelines of the organization.

You are also expected to maintain the confidentiality of any proprietary information, source code, datasets, research material, business information, credentials, or other sensitive information accessed during the internship. Such information must not be disclosed or shared with any unauthorized individual or organization without prior written permission.

Performance and Evaluation

Your performance during the internship will be evaluated based on your technical contribution, quality of work, research capabilities, problem-solving skills, teamwork, professionalism, learning ability, and adherence to assigned timelines.

Upon successful completion of the internship and fulfillment of the required responsibilities, you may be considered for an Internship Completion Certificate/Experience Certificate, subject to the organization's applicable policies.

Acceptance of Appointment

We believe that this internship will provide you with valuable practical exposure to full-stack development, Artificial Intelligence, Machine Learning research, and model training, while allowing you to contribute meaningfully to our projects.

We welcome you to the organization and wish you a productive and successful internship.
